

December 2, 2011

Dear Supporter: *Douglas*

H'Art of Ottawa is an innovative visual arts studio that supports the creative development of artists with intellectual disabilities. The artists exhibit, promote and sell their paintings, through the studio, galleries and venues within the community, providing the opportunity to more than 50 artists to participate in society in a meaningful way, and to contribute to the growing awareness of the general public that persons with disabilities can lead a fruitful, productive and independent life.

Every year, many of the beautiful paintings are made into cards and, for the first time this year, into a calendar. The sale of paintings, greeting cards and calendars is an important source of money for H'Art, and makes a big difference in the program. We thank you for supporting H'Art in purchasing your greeting cards from us. Please accept a copy of our new calendar as a token of our appreciation.

Pauleane, volunteer, Board of Directors
